manuell maschinell (www.manuell.dj; zh) is an unusually busy dj and electronic music lover, playing mostly in clubs in zürich and berlin. after delivering 65 “monday-mixes” with chillout, electronica and techno from 2009 to 2010, he’s now co-hosting the show “active beats” on radio stadtfiler (on air & internet). as a convinced traktor-dj, manuel explores what is possible by means of modern technology. he appreciates the possibilities of realtime sampling, looping, tinkering, layering and filtering - thereby creating his own plot lines or even his own music. like with all our guests, we’re giving him completely free hands musical-wise and are curious where his own music (or technology?) will take him!
