to capture the sound of **tillup** (motherland, tropical continent; zürich) seems to be a rather ambitious task. as long as we talk of dubtechno, uk funky, afrohouse, kuduro and juke, our listeners might nod wisely. but let's be honest. it's getting adventurous when we're going into the details: do you have an idea how "baltimore" sounds? or "new oreleans bounce"? or "angolahouse"? or "future trap"? well, we look forward to deal out another carte blanche to our guest. listen!
