- download from www.comfortnoise.com (mp3/224kbs/250mb)

as a dj, producer, radio host and promoter, **luki** (love stream; zürich) approaches electronic music in a flamboyant earnest manner. different than lots of his colleagues, he perfectly knows how to concentrate his skills and energy on the spot. in this show he's showing us his conception of how current electronic music, club culture and modern information technology (should) fit together.

we're once again featuring different artists that match their skills into a unique audio-visual experience: on one side we have luki & new.com dj-ing for comfortnoise podcast while on the other side the painter/streetartists **snyr** & **osrok** (zürich) are in the very same moment shaping the walls of our studio.
